PREP FOR DELIVERY:

PKGING DATA - QUP 001:
SHALL BE PACKAGED STANDARD COMMERCIAL IN ACCORDANCE WITH ASTM D 3951.

For all shipments of packaged materiel to the government, which includes either depot (DLA-direct) or DVD (customer-direct) shipments, both DoD linear and 2-D bar code markings are required on military shipping labels in accordance with MIL-STD-129, revision P, dated December 15, 2002. 2-D bar coding shall be in accordance with ISO/IEC 15438, ISO/IEC 15434 (ANSI MH10.8.3) and DoD 4500.9-R. MSL linear (code 3 of 9 or code 39) bar coding shall be in accordance with ISO/IEC 16388. MSL label stock quality shall meet MIL-PRF-61002. MSL bar code print quality shall meet ANSI MH10.8-2000 or ANSI X3.182-1990 (R2000) for applicable 2-D and/or linear bar codes. All DVD shipments shall meet additional linear bar coding requirements in DLAD 52.211-9008. When the contract/order omits any data element required to be bar-coded, the field shall be zero-filled. These requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P. If there are inconsistencies between the schedule

L17C01	52.217-9002	CONDITIONS FOR EVALUATION AND ACCEPTANCE OF OFFERS FOR PART NUMBERED ITEMS (JUL 2002) DLAD					
<p>(a) The product described in the acquisition identification description (AID) of this solicitation is that product which the Government has determined to be acceptable. All Offerors shall indicate below, or through an alternative means in an electronic quoting system, whether they are offering an 'exact product,' an 'alternate product' (which includes a 'previously reverse-engineered product'), a 'superceding part number,' or a 'previously-approved product;' and shall furnish the data required for whichever is applicable. (To determine which type of product to indicate, Offerors must refer to the criteria in subparagraphs (b)-(e) of this provision, respectively.) Any product offered must be either a product cited in the AID; or be physically, mechanically, electrically, and functionally interchangeable with a product cited in the AID, including additional requirements referred to in the AID, if any.</p> <p>Exact Product - Applies to CLIN(s):</p> <p>(Vendor Fill-in)</p> <p>Alternate/Previously Reverse-Engineered Product - Applies to CLIN(s):</p> <p>(Vendor Fill-in)</p> <p>Superceding Part Number - Applies to CLIN(s):</p> <p>(Vendor Fill-in)</p> <p>Previously-Approved Product - Applies to CLIN(s):</p> <p>(Vendor Fill-in)</p> <p>(b) 'Exact product.'</p> <p>(1) 'Exact product' means a product described by the name of an approved source and its corresponding part number, as currently cited in the AID; modified (if necessary) to conform to any additional requirements set forth in the AID; and manufactured by, or under the direction of, that approved source. If an Offeror indicates that an 'exact product' is being offered, the Offeror must meet one of the descriptions in subparagraphs (i)-(iv) below. (Any Offeror not meeting one of these descriptions is not considered to be offering 'exact product;' even though the item may be manufactured in accordance with the drawings and/or specifications of an approved source currently cited in the AID.)</p> <p>(i) An approved source currently cited in the AID offering its corresponding part number as cited in the AID;</p> <p>(ii) A dealer/distributor offering the product of an approved source that meets the description in subparagraph (i) above;</p> <p>(iii) A manufacturer who (A) produces the offered item under the direction of an approved source currently cited in the AID; and (B) has authorization from that approved source to manufacture the item, identify it as that approved source's name and part number, and sell the item directly to the Government. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation to demonstrate such authorization.</p> <p>(iv) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (iii) above. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation that demonstrates such authorization.</p> <p>(2) When the AID identifies the item being acquired as a critical safety item (CSI), offers of exact product will be evaluated in accordance with 52.211-9005.</p> <p>(c) 'Alternate product.'</p> <p>(1) The Offeror must indicate that an 'alternate product' is being offered if the Offeror is any one of the following:</p> <p>(i) An Offeror who (A) manufactures the item for an approved source currently cited in the AID; and (B) does not have</p>			<p>authorization from that approved source to manufacture the item, identify it as the approved source part number, and sell the item directly to the Government;</p> <p>(ii) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (i) above;</p> <p>(iii) An Offeror of a previously reverse-engineered product that is not currently cited in the AID; or</p> <p>(iv) Any other Offeror who does not meet the criteria in subparagraphs (b)(1), (d), or (e) of this provision.</p> <p>(2) If an alternate product is offered, the Offeror shall furnish with its offer legible copies of all drawings, specifications, or other data necessary to clearly describe the characteristics and features of the alternate product being offered. Data submitted shall cover design, materials, performance, function, interchangeability, inspection and/or testing criteria, and other characteristics of the offered product. If the offered product is to be manufactured in accordance with data the Offeror has obtained from elsewhere within the Government, the Offeror shall either furnish the detailed data specified in this paragraph, or supply a description of the data package in its possession; i.e., basic data document and revision, the date the data was obtained and from whom (Government agency/activity). If the Offeror does not furnish the detailed data with its offer, the Contracting Officer will be unable to begin evaluation of the offered product until such time as the detailed data can be obtained from the Government agency/activity possessing the data. If the alternate product is a previously reverse-engineered product, the Offeror shall provide: traceability documentation to establish that the offered item represents the item specified in the AID (i.e., invoice from an approved source or submission of samples having markings of an approved source); number of samples that were examined; the process/logic used; raw data (measurements, lab reports, test results) used to prepare drawings or specifications for the offered item; any additional evidence that indicates the reverse-engineered item will function properly in the end item; and any evidence that life cycle/reliability considerations have been analyzed.</p> <p>(3) In addition, the Offeror may be required to furnish data describing the 'exact product' cited in the AID. The data required from the Offeror depends on the level of technical data describing the exact product, if any, available to the Government. The possible levels of technical data the Government may have and the corresponding data submission requirements for Offerors are identified in subparagraphs (a)-(d) below. For the item(s) being acquired under this solicitation, the level of data in the Government's possession and the corresponding requirements for data submission are identified in the AID; or, if not specified in the AID, are as follows: [buyer insert (a), (b), (c), or (d), as applicable, if AID does not identify]. (If the level of data in the Government's possession and Offeror requirements for data submission are not identified in either the AID or in this subparagraph (c)(3), then subparagraph (a) below applies.)</p> <p>(a) No data: This Agency has no data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the AID, sufficient to establish that the Offeror's product is equal to the product cited in the AID.</p> <p>(b) Adequate proprietary (i.e., limited rights) data: This Agency possesses adequate drawings and/or specifications for the exact product as cited in the AID, but such data are proprietary (i.e., limited rights) and shall be used only for evaluation purposes. The Offeror must furnish the data required in subparagraph (c)(2) of this provision, but is not required to submit data on the exact product.</p> <p>(c) Inadequate data: This Agency does not have adequate data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the AID, sufficient to establish that the Offeror's product is equal to the product cited in the AID.</p> <p>(d) Adequate catalog data: This is a commercial off the shelf item. Adequate catalog data are available at the contracting office to evaluate alternate offers. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish with its offer a commercially-acceptable cross reference list; or legible copies of all drawings, specifications or other data necessary to clearly describe the characteristics and features of the alternate product being offered, sufficient to establish that the Offeror's product is equal to the product cited in the AID. The Offeror is not required to submit data on the exact product.</p> <p>(3) Except for indefinite delivery purchase orders (IDPOs), if</p>

CONTINUATION SHEET		Solicitation Number: SPM760-05-U-0009	PAGE 10	OF 11	PAGES
<p>this solicitation is automated (i.e., if the solicitation number begins with SPE; or begins with SP0 and contains 'T' or 'U' in the ninth position of the procurement instrument identification number (PIIN)), the Contracting Officer will not evaluate offers of alternate product (which includes offers of previously reverse-engineered product) for the current procurement. Instead, the Offeror shall submit a request to the location below for evaluation of the alternate product's technical acceptability for future procurements of the same item. The request for evaluation shall cite the National Stock Number (NSN) of the exact product and, as identified in this provision, include the applicable level of technical data on the alternate and exact products. All offers of alternate product will be handled in accordance with DLAD 17.7501(b)(4).</p> <p>(i) For solicitation numbers beginning with SPE7 or SPE9; or beginning with SP0 and containing 'T' or 'U' in the ninth position of the PIIN: Defense Supply Center Columbus Directorate of Procurement Alternate Offer Monitor, DSCC-PCA 3990 East Broad Street Columbus, OH 43216-5000</p> <p>(ii) For solicitation numbers beginning with SPE4; or beginning with SP0 and containing 'T' or 'U' in the ninth position of the PIIN: Defense Supply Center Richmond Office of the Competition Advocate ATTN: DSCR-DU 8000 Jefferson Davis Highway Richmond, VA 23297-5100</p> <p>(iii) For solicitation numbers beginning with SPE5; or beginning with SP0 and containing 'T' or 'U' in the ninth position of the PIIN: Defense Supply Center Philadelphia Office of the Competition Advocate/General & Industrial DSCP-PI 700 Robbins Avenue Philadelphia, PA 19111-5096</p> <p>(d) 'Superceding part number.' (1) The Offeror must indicate that a 'superceding part number' is being offered if the offered item otherwise qualifies as an 'exact product,' except that the part number cited in the AID has been superceded. The Offeror may be requested to furnish data, or provide confirmation through some other means, sufficient to establish that there are no changes in the configuration of the part. However, if such data are unavailable, the Offeror may be required to furnish technical data as required in paragraph (c) for 'alternate products.' (If such data indicate there have been changes in the configuration of the part, the offered item must be identified as an 'alternate product.')</p> <p>(2) For solicitation numbers beginning with SPE, any data to be furnished with an offer of a 'superceding part number' should be mailed to the buyer at the procuring activity address on the solicitation. (Uploading the information with the quotation, or including it in the 'Remarks' section, will make the offer a 'bid with exception,' causing it not to be evaluated.)</p> <p>(e) 'Previously-approved product.' (1) If the product offered has previously been furnished to the Government or otherwise previously evaluated and approved, the Offeror shall indicate in the space provided below, or through an alternative means in an electronic quoting system, the contract and/or solicitation number under which the product was furnished or approved. CLIN NR(s) _____ (Vendor Fill-in) have been previously furnished or evaluated and approved under contract/solicitation number _____ (Vendor Fill-in)</p> <p>(2) If the product was furnished or evaluated and approved by a contracting activity different from the one issuing this solicitation, Offerors are advised that the Contracting Officer may not have access to records of another activity or other information sufficient to reasonably determine the offered product's acceptability. Therefore, in order to ensure that adequate data is available for evaluation, Offerors may elect to furnish with their offer the information requested by subparagraph (b) or (c) of this provision, whichever is applicable for the offered product. Offerors are advised that if the additional data is not furnished, the Government may not be able to evaluate the offer. (For solicitation numbers beginning with SPE, the information should be mailed to the buyer at the procuring activity address on the solicitation. Uploading the information with the quotation, or including it in the 'Remarks' section, will make the offer a 'bid with exception,' causing it not to be</p>		<p>evaluated.)</p> <p>(f) For all types of offers ('exact product,' 'alternate product,' 'superceding part number,' or 'previously-approved product'), Offerors shall provide the Contractor and Government Entity (CAGE) Code of the manufacturer and the part number being offered for each item in the solicitation.</p> <p>(g) Failure to furnish adequate data and/or information as prescribed in subparagraph (b), (c), (d) or (e) of this provision (when required for the current procurement) within 10 business days or less, or as otherwise required by the Contracting Officer or elsewhere in this solicitation, may preclude consideration of the offer. For automated procurements, it is the responsibility of the Offeror when offering a 'superceding part number' or a 'previously-approved part number' to ensure that supporting documentation arrives at the contracting activity within 2 business days after the data is requested, or the offer may not be considered. The Agency will make every effort to determine, prior to award, the acceptability of the products offered which meet the dollar savings threshold shown below, and/or which have a reasonable chance to receive an award based on price offered. Generally, the Agency will not evaluate alternate offers not meeting the dollar threshold. The savings potential is based on the cost of evaluation (\$200.00 if only a local technical evaluation is involved, plus an additional \$1,200.00 for each required Engineering Support Activity evaluation). If the Agency determines that an evaluation cannot be completed before the expected contract award date due to urgent requirements for the item, alternate offers will not be considered for the current procurement. Instead, they will be evaluated for technical acceptability for future procurements of the same item, if adequate data is submitted and savings potentials are expected, as stipulated above. For alternate offers not evaluated, the Offeror's complete technical data package will be returned.</p> <p>(h) If Offerors desire to restrict the Government's use of data submitted for evaluation, the data must bear the appropriate legends as prescribed by FAR 52.215 1(e). In the event an award is made to an Offeror submitting data without the appropriate legend, the Government will have unlimited rights to its use as defined in DFARS 252.227 7013.</p> <p>(i) It is the Government that determines if the documentation or other evidence furnished by an Offeror is adequate to satisfy the requirements in this provision. If the Contracting Officer requests evidence from a Contractor who received an award resulting from this solicitation, and the Contracting Officer subsequently finds the evidence to be unacceptable, the award may be cancelled.</p> <p>L17C02 52.217-9003 MANUFACTURING OR PRODUCTION INFORMATION (FEB 1996) DLAD</p> <p>L19C01 52.219-9001 SET-ASIDES OF ACQUISITIONS OF ITEMS LISTED IN THE SCHEDULE OF PRODUCTS MADE IN FEDERAL PENAL AND CORRECTIONAL INSTITUTIONS (JUN 2002) DLAD</p> <p>L33C01 52.233-9000 AGENCY PROTESTS (SEP 1999) DLAD</p> <p>L52A01 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998) FAR</p> <p>This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es): http://www.dla.mil/j-3/j-336/icps.htm</p> <p>L52A02 52.252-5 AUTHORIZED DEVIATIONS IN PROVISIONS (APR 1984) FAR</p> <p>(a) The use in this solicitation of any Federal Acquisition regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of '(DEVIATION)' after the date of the provision.</p> <p>(b) The use in this solicitation of any DoD FAR Supplement (DFARS) (48 CFR Chapter 2) provision with an authorized deviation is indicated by the addition of '(DEVIATION)' after the name of the regulation.</p>
